HOISTS

A range of customisation options are available for Molnar Hoists products, including control unit positioning, personalised colouring and alternative sizing options. The production team at Molnar Hoists work with you to help customise products in line with corporate branding or workshop design.

As customisation options are specific to each product, please refer to individual product brochure or specification sheets for all available choices.

PERSONALISED COLOUR

All Molnar Hoists products are powder coated for added durability, enabling final colour to be personalised to match customer preferences.

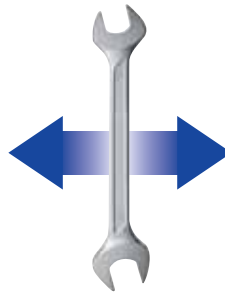

Powder coating provides parts with a hard wearing finish that is much tougher than conventional paint. A tough polymer skin is baked on to the components, making surfaces more resistant to chipping, scratching, fading and wearing than other finishes.

Colour selection is virtually unlimited. Custom finishes are available to suit any workshop environment or corporate identity. Choose from a large range of colours or provide us with your corporate identity for direct colour matching.

CONTROL UNIT POSITIONING

For our range of Four Post and Four Post Rails Hoists, control unit position can be moved from left to right to best suit individual workshop layout.

CUSTOM SIZING

For our range of Two Post Hoists, a set range of height To suit differences in workshop layout or working requirements, set custom sizes are available for various hoist products. Specific details are included on product specification sheets.

For our range of clear floor Two Post Hoists, a set range of height options are available in measurements either greater than or less than standard sizing.

For our All Rounder Two Post Hoist (OH93) and Base Two Post Hoist (85A) models, a wide option is also available.

For our complete range of Four Post Hoists (including Rails), a longer option is available.

ELECTRICAL POWER OPTIONS

To suit the varying needs of customers, hoists are available in both 415 volt three phase and 240 volt single phase. Specify your preference at time of order.
